First sentence

Site can get removal funding to do cleanup... so when you say eligible for federal cleanup funds – lets make it “federal remedial cleanup funds”

Hello Jim:

I've attached an updated briefing paper with some talking points for you and your staff's review per Doug's request. It looks like the plan is to prepare something for Barry to submit to Kell. As you know, we've been keeping Kell up to speed on this site for the past several months.

I have not shared this paper with Alexis as of yet and will do so promptly. She has been very

involved in the process recently. As such, please share with us your edits prior to the paper going to Barry so we can have Alexis do one last review. I hope that's workable for you and your folks.

My staff and I will be in Yerington for a roundtable discussion organized by the State of Nevada on Tuesday. In preparation for that discussion with various stakeholder groups, the State shared several documents relevant to the deferral process, including the unsigned deferral agreement between the State and EPA. The state has sponsored several of these roundtable discussions over the last year or so. Next Tuesday's meeting is a continuation of that approach.

I will be in the office on Monday and can get on the phone if you would like with you and your staff.

Take care

Enrique

Angeles,

We are looking for a current update on the site and deferral status to provide to Kell thru Jim and Barry. Is there something up-to-date and available? Thanks.
